WORK EXPERIENCE

Canada Learning Code

○ Youth Program Instructor 2017-Present

- **Engages** and **teaches** children to actively participate in workshops that include building websites with **HTML** and **CSS**, and themed video games using **Scratch**.
- **Encourages** children to continue learning and exploring more about technology outside of workshops (i.e. school, home).

○ Code Mobile • Youth Program Volunteer 2017

- **Travelled around various communities in Ontario** and setup interactive tech stations, encouraging children to explore technology (i.e. Virtual Reality, Arduino).
- Taught children how to create video games and animations using **Scratch**.
- **Communicated** with the Manager for future workshops, updates, and material.

Cineplex

○ Part-Time Cast Member 2017

- Taking the **initiative** and being **attentive** to serve food, drinks and needs to guests and **communicated** with co-workers and management to follow up on updates

EDUCATION

Ryerson University

First Year • Computer Science 2018-Present

- First Year Representative for Women in Computer Science
- Learning Java, Computer Organization, Discrete Math, & Calculus.
- Expected Graduation Date: May 2022

PROJECTS

BRE,AD • Elle Hacks 2019

- An interactive app that encourages the development and importance of soft skills in the workplace.
- Created the prototype and design of the app using Figma and Invision.

MindfulMe • StarterHacks 2019

- A web application that allows doctors to communicate with their patients and receive updates in regards to their mental health online.
- Helped create the website and prototype using HTML, CSS, and Invision.
